Tony Seo(Hyeon-Woo)

Email:tonyseo98@gmail.com / C:(678)677-9266

Address:4845 Jones Bridge Place Dr Alpharetta GA 30022

Github:https//github.com/TonySeo98

Education:

Kennesaw State University - Kennesaw, GA,US

Bachelor of Science in Computer Science

Graduation Date: May 2020

GPA:3.57

Skill Areas:

- Java
- C++
- C#
- Python

- Unity
- HTML/CSS
- SQL
- AWS Services - Foundational Certified

Experience:

UGA Hacks 3 - 3rd place
- Learned Unity/C# to create event scripts in a point and click game called blind. Also helped collaborate and work on image assets and game debugging process i.e. testing scripts to make sure they work properly as intended, make sure there aren't any unintentional bugs users can experience.

TonySeo.com Nov-2021
- Constructed a portfolio website using html/css that shows a basic overview of myself and projects I have completed.

Senior Project - May 2020
- Used node.js in creating a new website that will host as a report repository for KSU professors in future senior projects. It will be hosted on their redhat servers

PizzaParlor - Dec 2019
- Learned Django in python in combination with mySQLite to create a simulation of a pizza parlor restaurant with an example database. Experienced basics of using REST API that handled basic functions like login and orders.
